Claims Allowed

Claims 1 and 2 are allowable over the prior art of record. The claims are allowed because the prior art does not anticipate nor render obvious the invention of a transmission control apparatus for controlling a plurality of torque transmitting mechanisms comprising three linear actuator apparatus each having a linear actuator for supplying fluid pressure, each actuator having a plurality of electronically controlled valves for connecting an output pressure of the actuator with a respective ones of the torque transmitting mechanisms of the transmission and wherein the actuators are operated in groups of two to establish a plurality of drive ratios in the transmission.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Discussed

The references cited by the examiner are deemed pertinent to applicant's disclosure. Kirkwood shows a computer controlled electro-hydraulic device for actuating the speed ratios in a transmission including a plurality of pumps, but does not specify any particular kinds of pump and does not disclose linear actuator apparatus, as well as not having a plurality of valves with each pump.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dirk Wright whose telephone number is 703-308-2160. The examiner can normally be reached on Monday through Friday, 8AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 703-308-0830. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
